

Real Investo: A Smart Real Estate Listing & Management Platform

Real Investo is a modern real estate listing and management platform designed to simplify how properties are listed, discovered, and managed. It enables buyers, renters, agents, and administrators to interact through a single, intuitive system that supports property search, listings, subscriptions, and role based access. Built for scalability and customization, RealInvesto helps real estate businesses digitize operations, improve visibility, and deliver a seamless property discovery experience.

Mobile First Property & Agent Insights

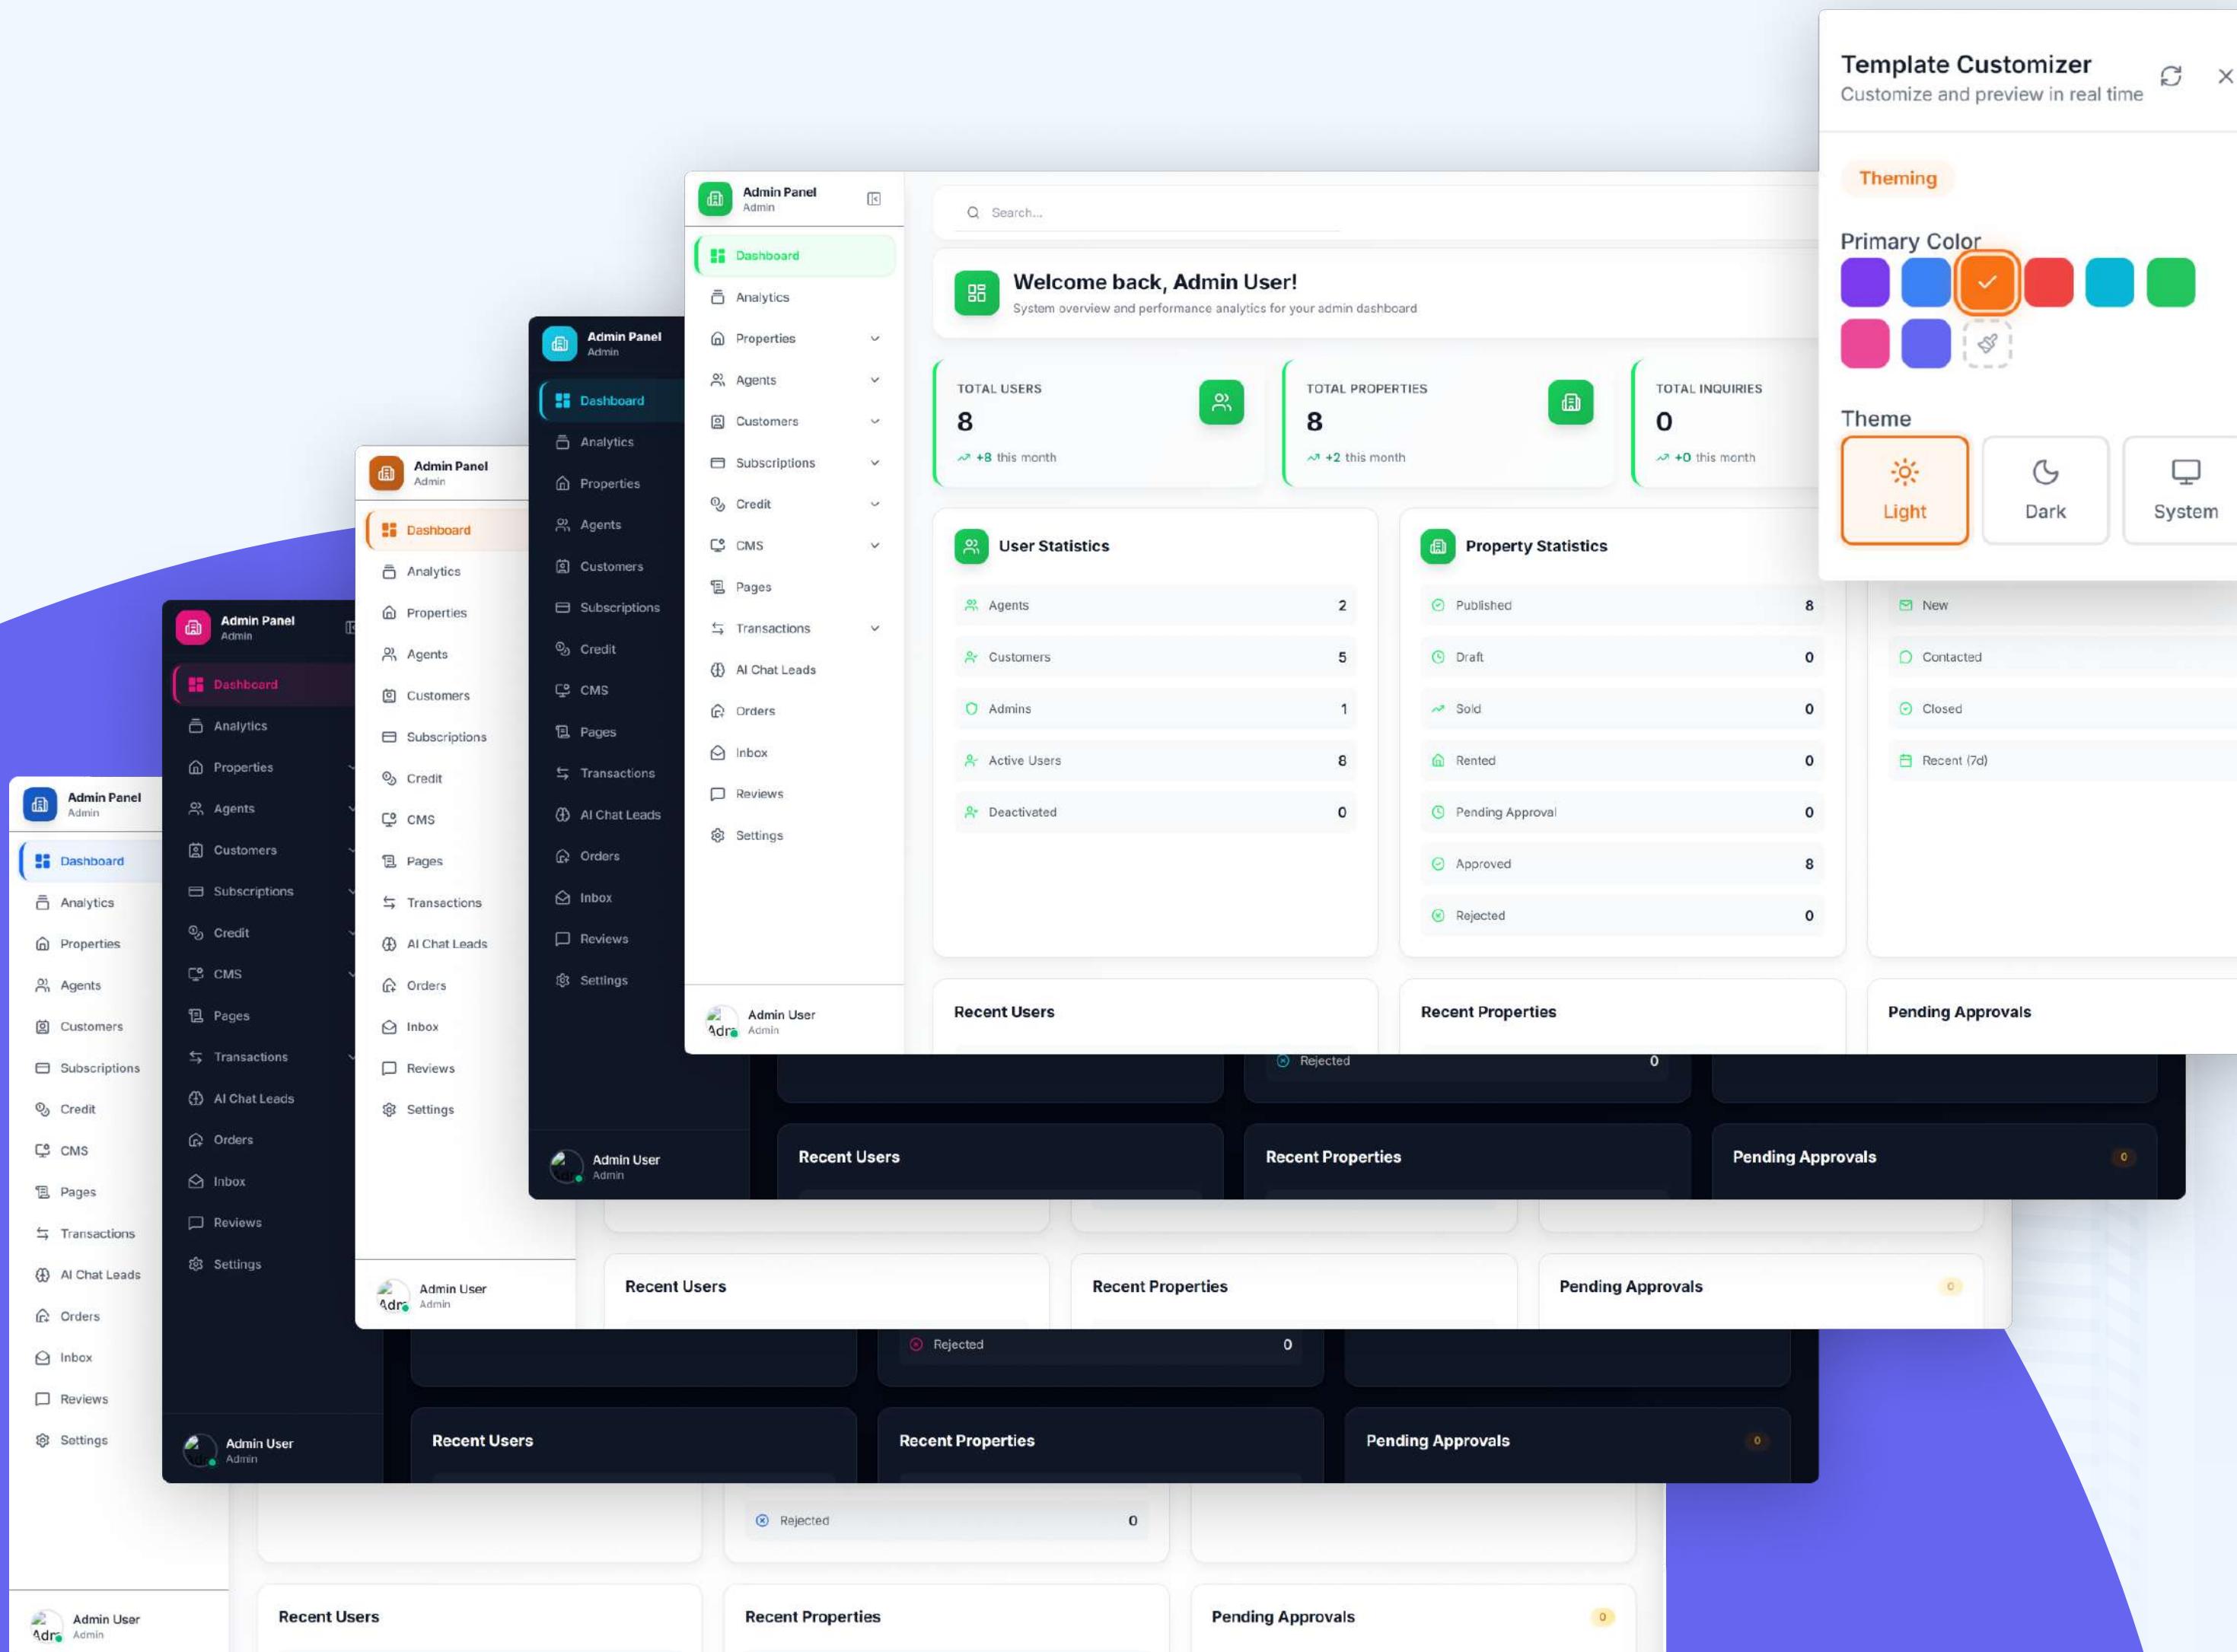

Track real time property performance and agent activity directly from your phone. Get instant access to key metrics like active listings, views, inquiries, and agent performance, enabling faster decisions and better on the go management from anywhere.

Customer Management

Easily manage customers from a centralized dashboard with complete visibility into their profiles, preferences, inquiries, and activity history. Track interactions, save requirements, and follow up efficiently to deliver a more personalized and responsive real estate experience.

CUSTOMER	EMAIL	JOINED	STATUS	2FA	ACTIONS
 James Anderson ID: 6	james.customer@gmail.com	Jan 7, 2026	• Active	<input type="radio"/> Disabled	
 Emily Johnson ID: 7	emily.customer@gmail.com	Jan 7, 2026	• Active	<input type="radio"/> Disabled	
 Michael Brown ID: 8	michael.customer@gmail.com	Jan 7, 2026	• Active	<input type="radio"/> Disabled	
 Test User ID: 1	test@example.com	Jan 7, 2026	• Active	<input type="radio"/> Disabled	
 Customer User ID: 4	customer@example.com	Jan 7, 2026	• Active	<input type="radio"/> Disabled	

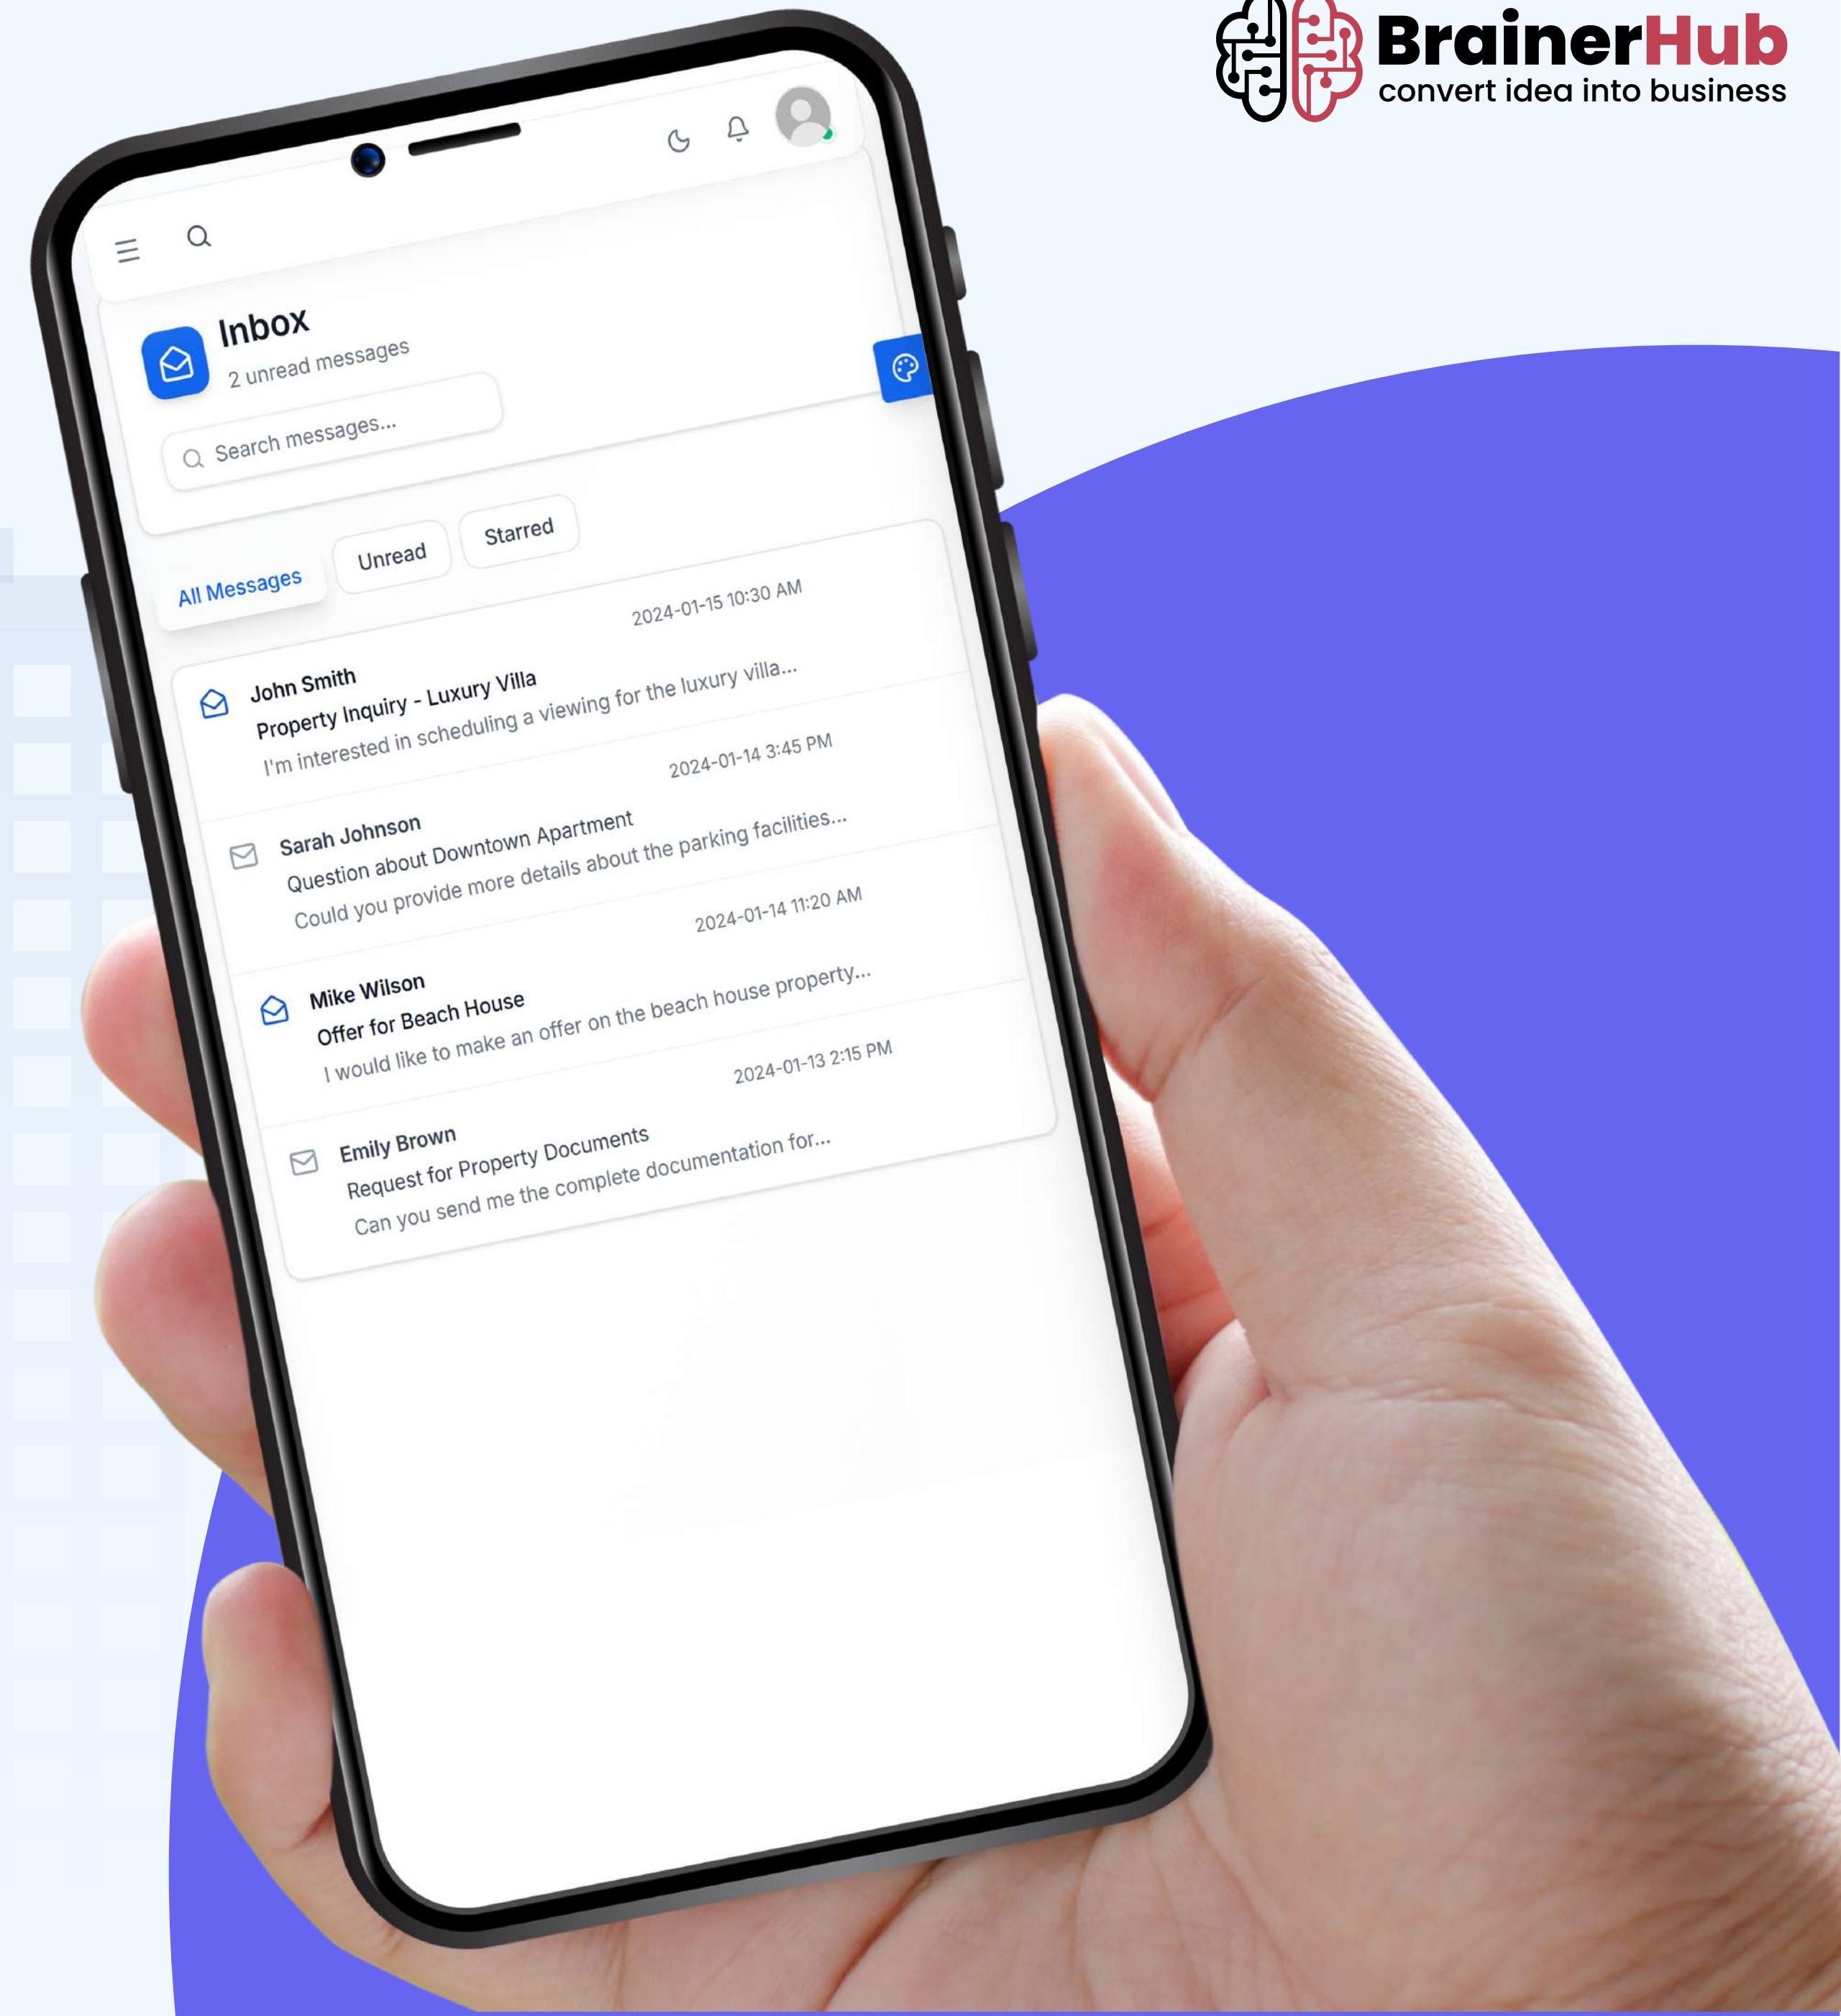

The Admin Panel features a clean, modern design with a sidebar navigation and a central dashboard. The sidebar includes links for Analytics, Properties, Agents, Customers, Subscriptions, Credit, CMS, Pages, Transactions, AI Chat Leads, Orders, Inbox, Reviews, and Settings. The dashboard displays key performance metrics: Total Users (8), Total Properties (8), and Total Inquiries (0). It also includes sections for User Statistics, Property Statistics, Recent Users, Recent Properties, and Pending Approvals. A central modal window titled 'Template Customizer' allows users to 'Customize and preview in real time'. The 'Theming' section features a primary color palette with orange selected, and a 'Theme' section with 'Light' (selected), 'Dark', and 'System' options.

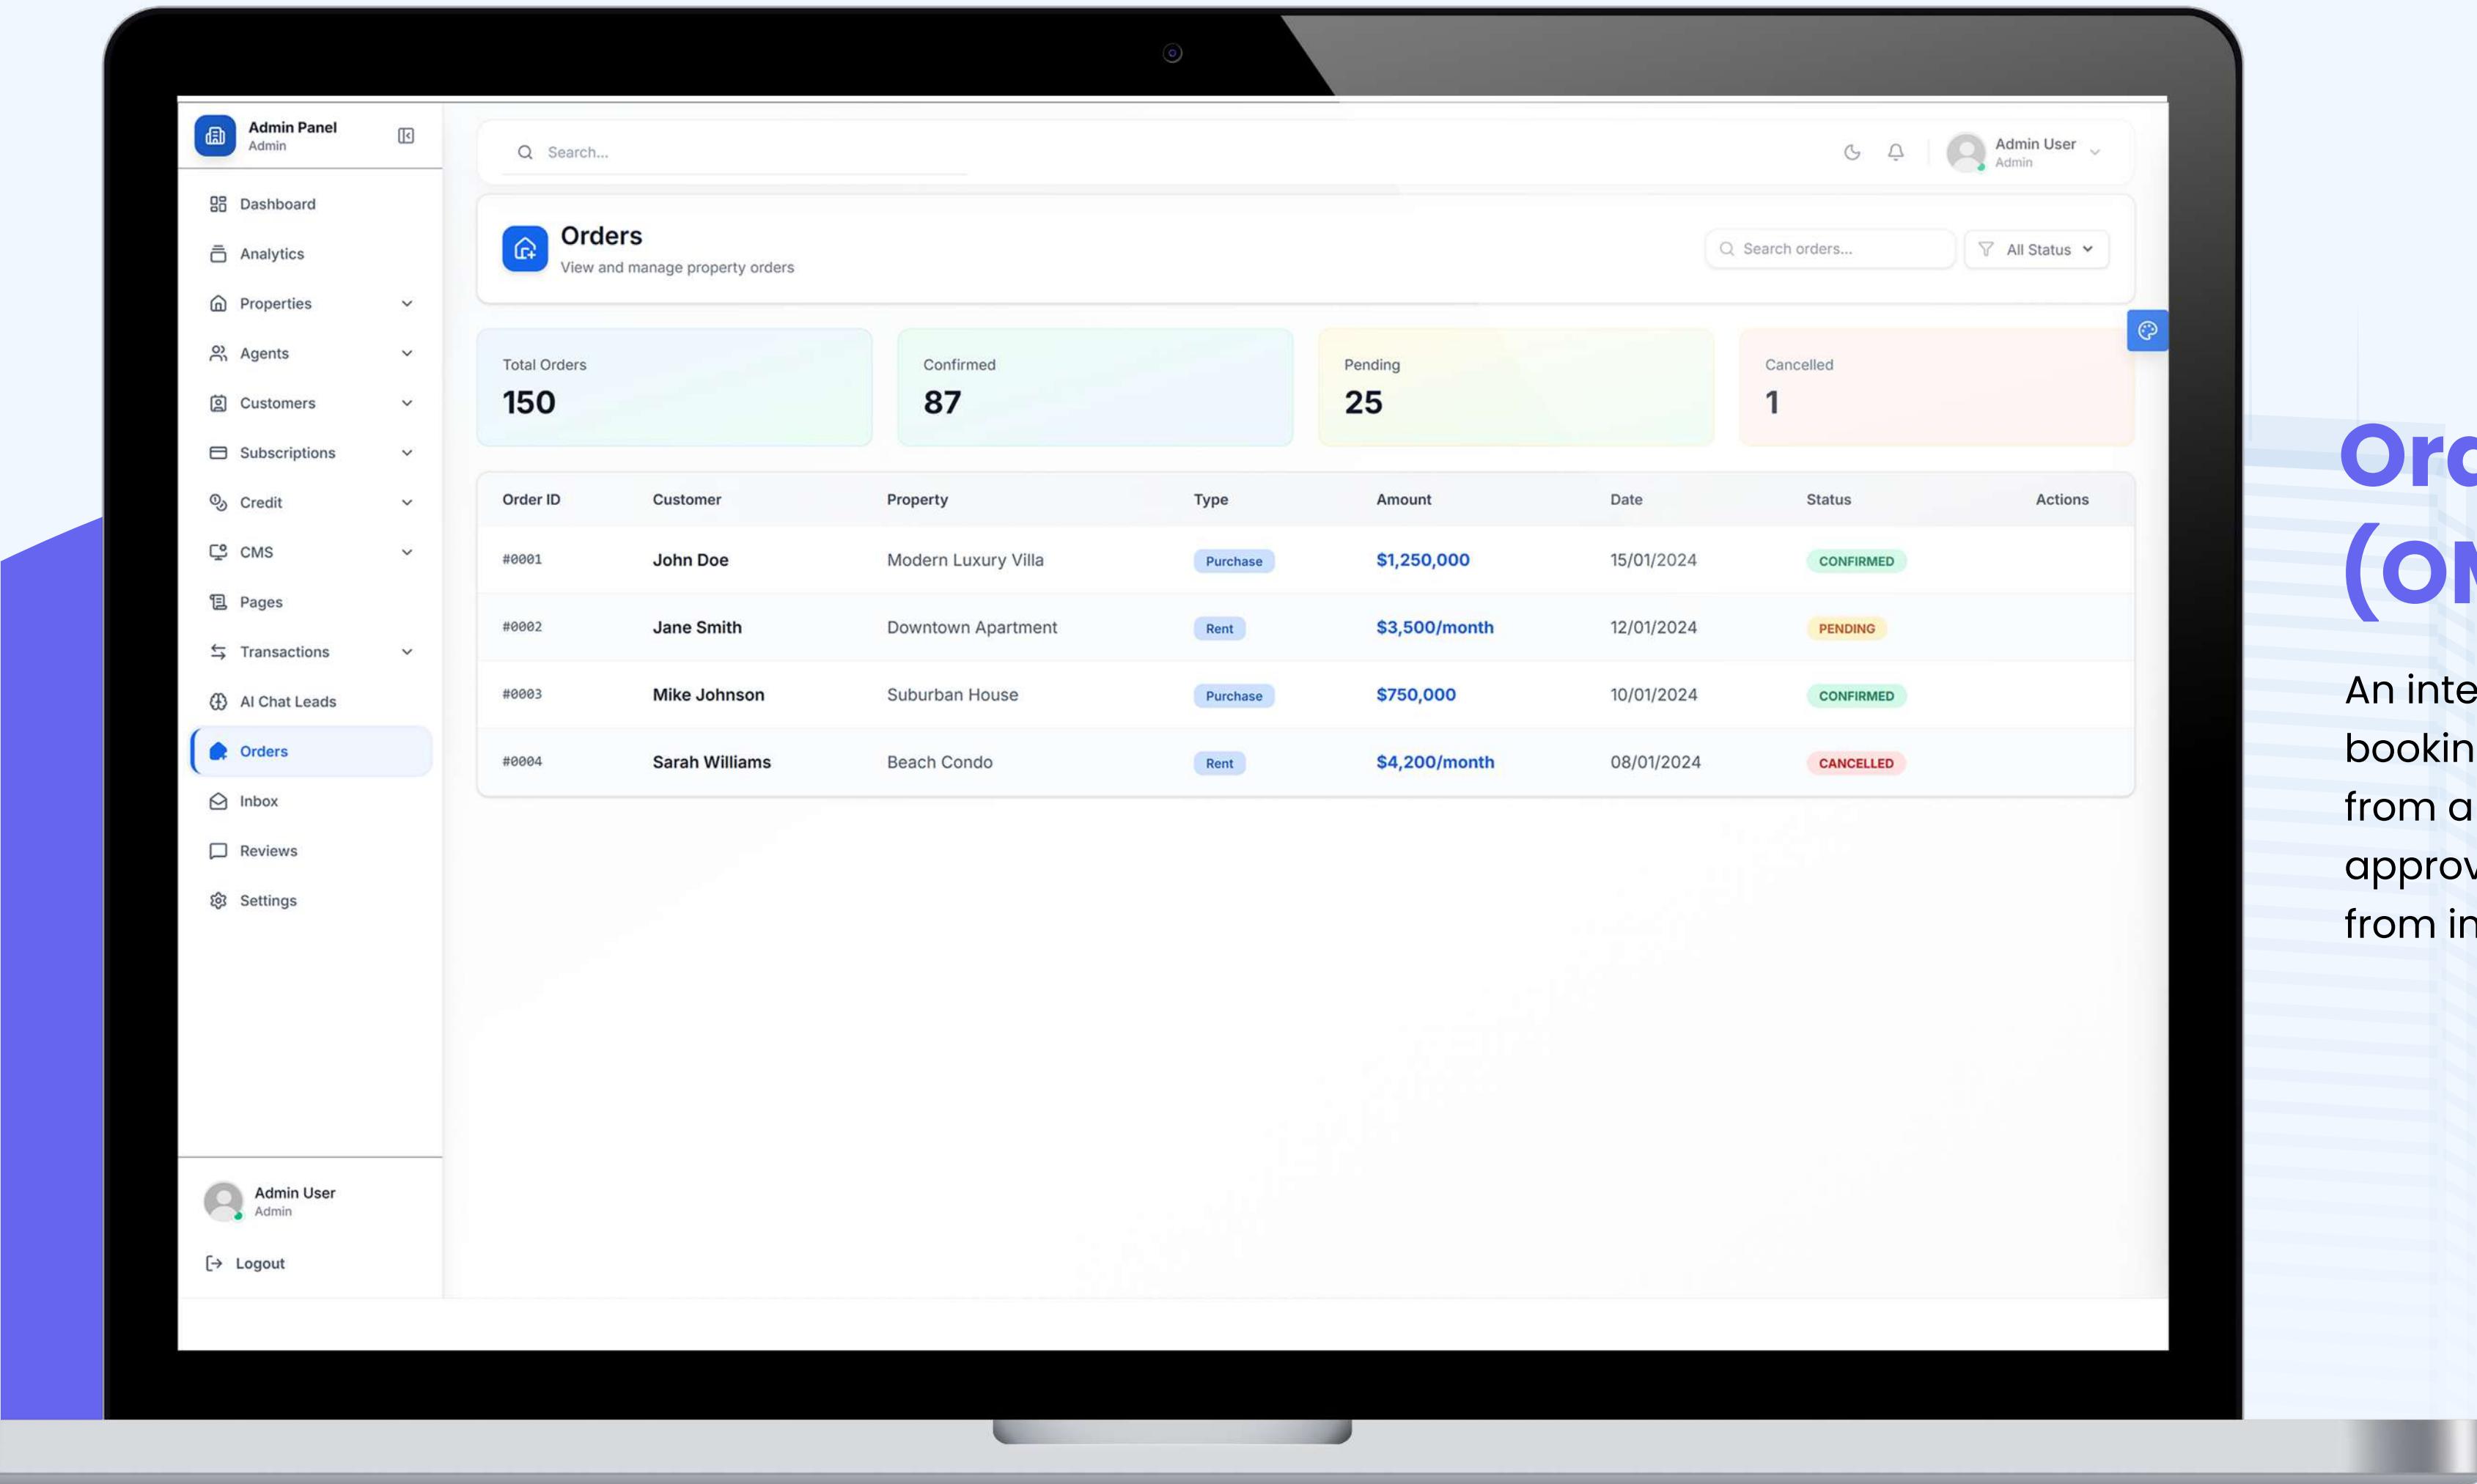

Template Customizer

Personalize your platform with a flexible template customizer that lets you tailor the dashboard to match your brand colors or even your current mood. Instantly adjust themes, layouts, and visual styles to create a consistent brand identity or a fresh look without any technical effort.

In House Inbox with AI Chatbot

A unified in house inbox that centralizes all customer conversations in one place. Powered by an AI chatbot, it handles instant responses to common queries, assists users in property discovery, and seamlessly hands over complex conversations to human agents ensuring faster replies and better customer engagement.

Order Management System (OMS)

An integrated Order Management System that helps manage bookings, subscriptions, property transactions, and service requests from a single dashboard. Track order status in real time, manage approvals and payments, and ensure smooth, transparent workflows from initiation to completion.

Tech Stack Used

Real Investo is built on a modern, scalable, and secure technology stack designed to support high performance and future growth.

Frontend

 React  TypeScript  Modern UI components and responsive design

Backend

 Laravel  RESTful APIs  Role based access control

Database

 MySQL

Real Investo is built on a stable and scalable technology foundation that supports consistent performance, secure data handling, and smooth system operations, enabling real estate platforms to run efficiently while supporting growth and long-term reliability.
