Orders & Payments

Seamless order placement with secure payment options, real time order confirmation, and a complete view of current and past orders for a smooth checkout experience. The system supports multiple payment methods and ensures reliable transaction tracking and settlement.

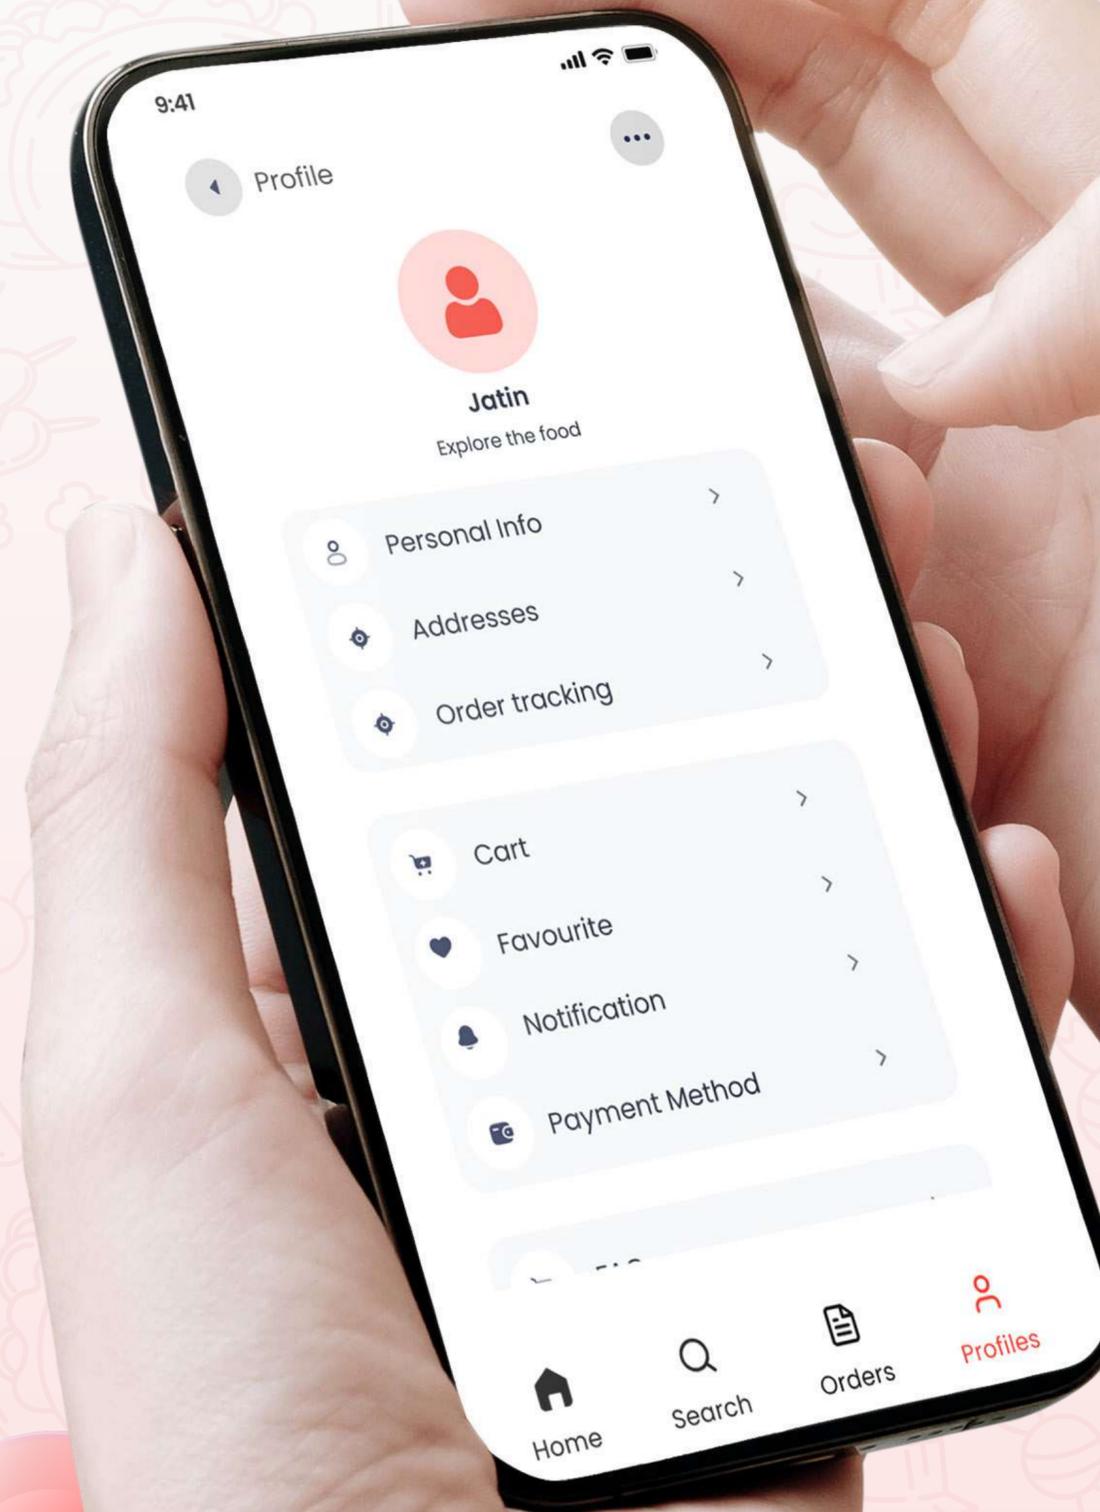

Live Delivery Tracking

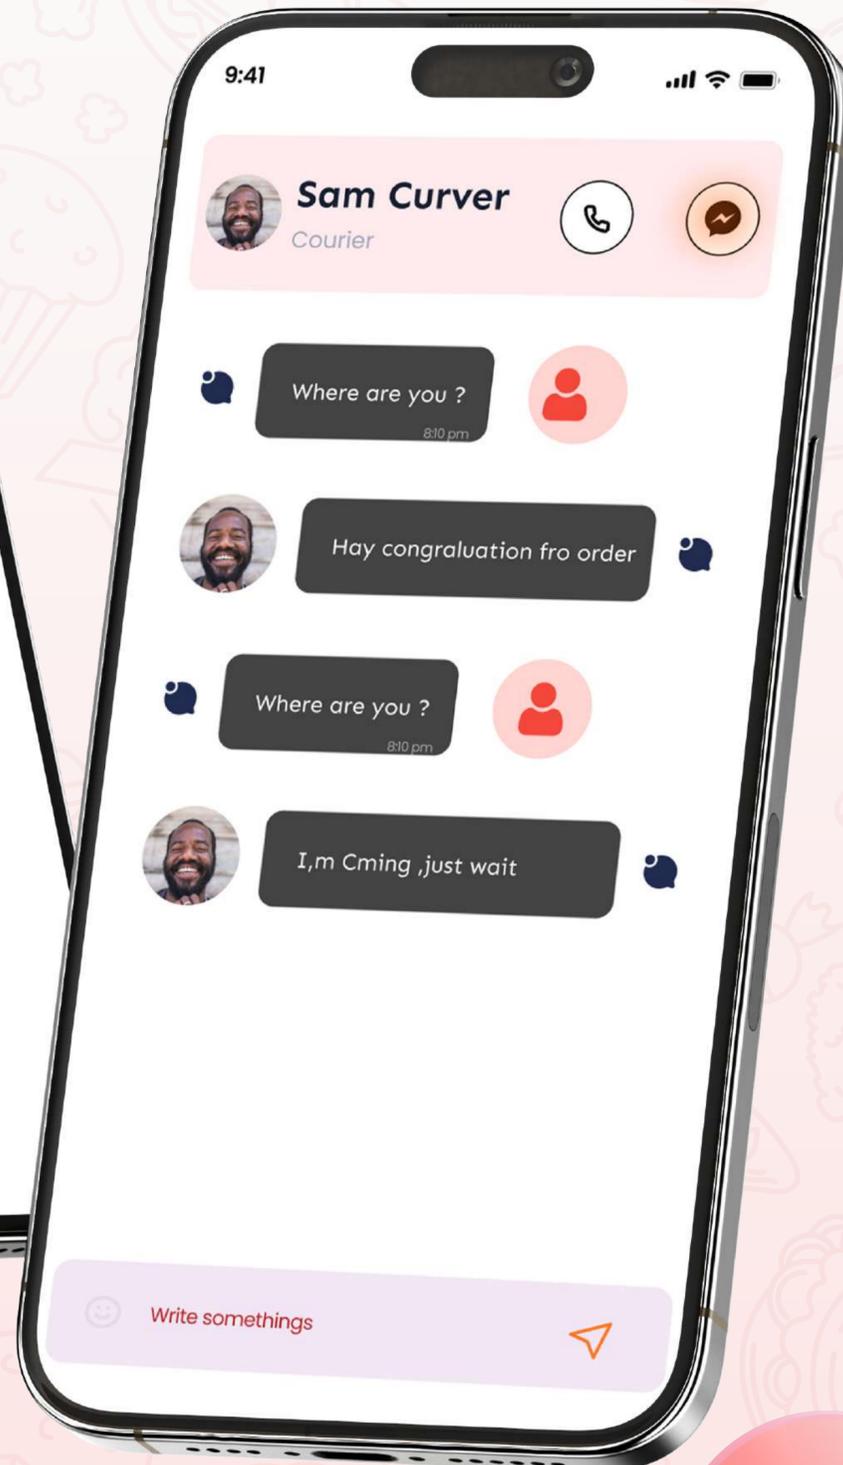

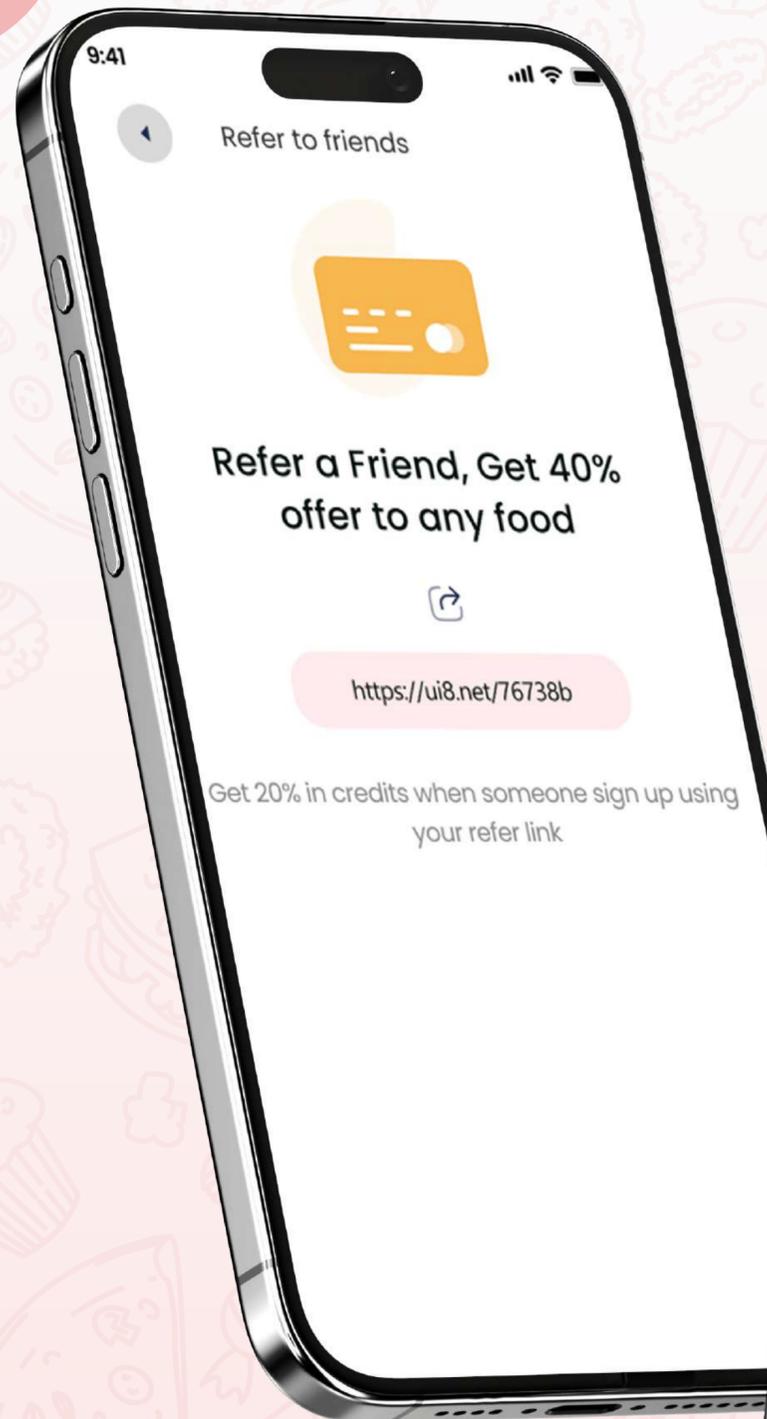

Real time GPS based tracking that allows users to monitor their delivery partner's location, estimated arrival time, and order status from pickup to doorstep. Automated status updates keep customers informed at every stage of the delivery.

Customer Profile & Data Insights

Centralized customer profiles that capture order history, preferences, locations, and behavior data, enabling data driven analytics and personalization.

Businesses can access this data to analyze customer trends, repeat orders, and purchasing patterns. These insights support better marketing decisions, targeted offers, and improved customer retention.

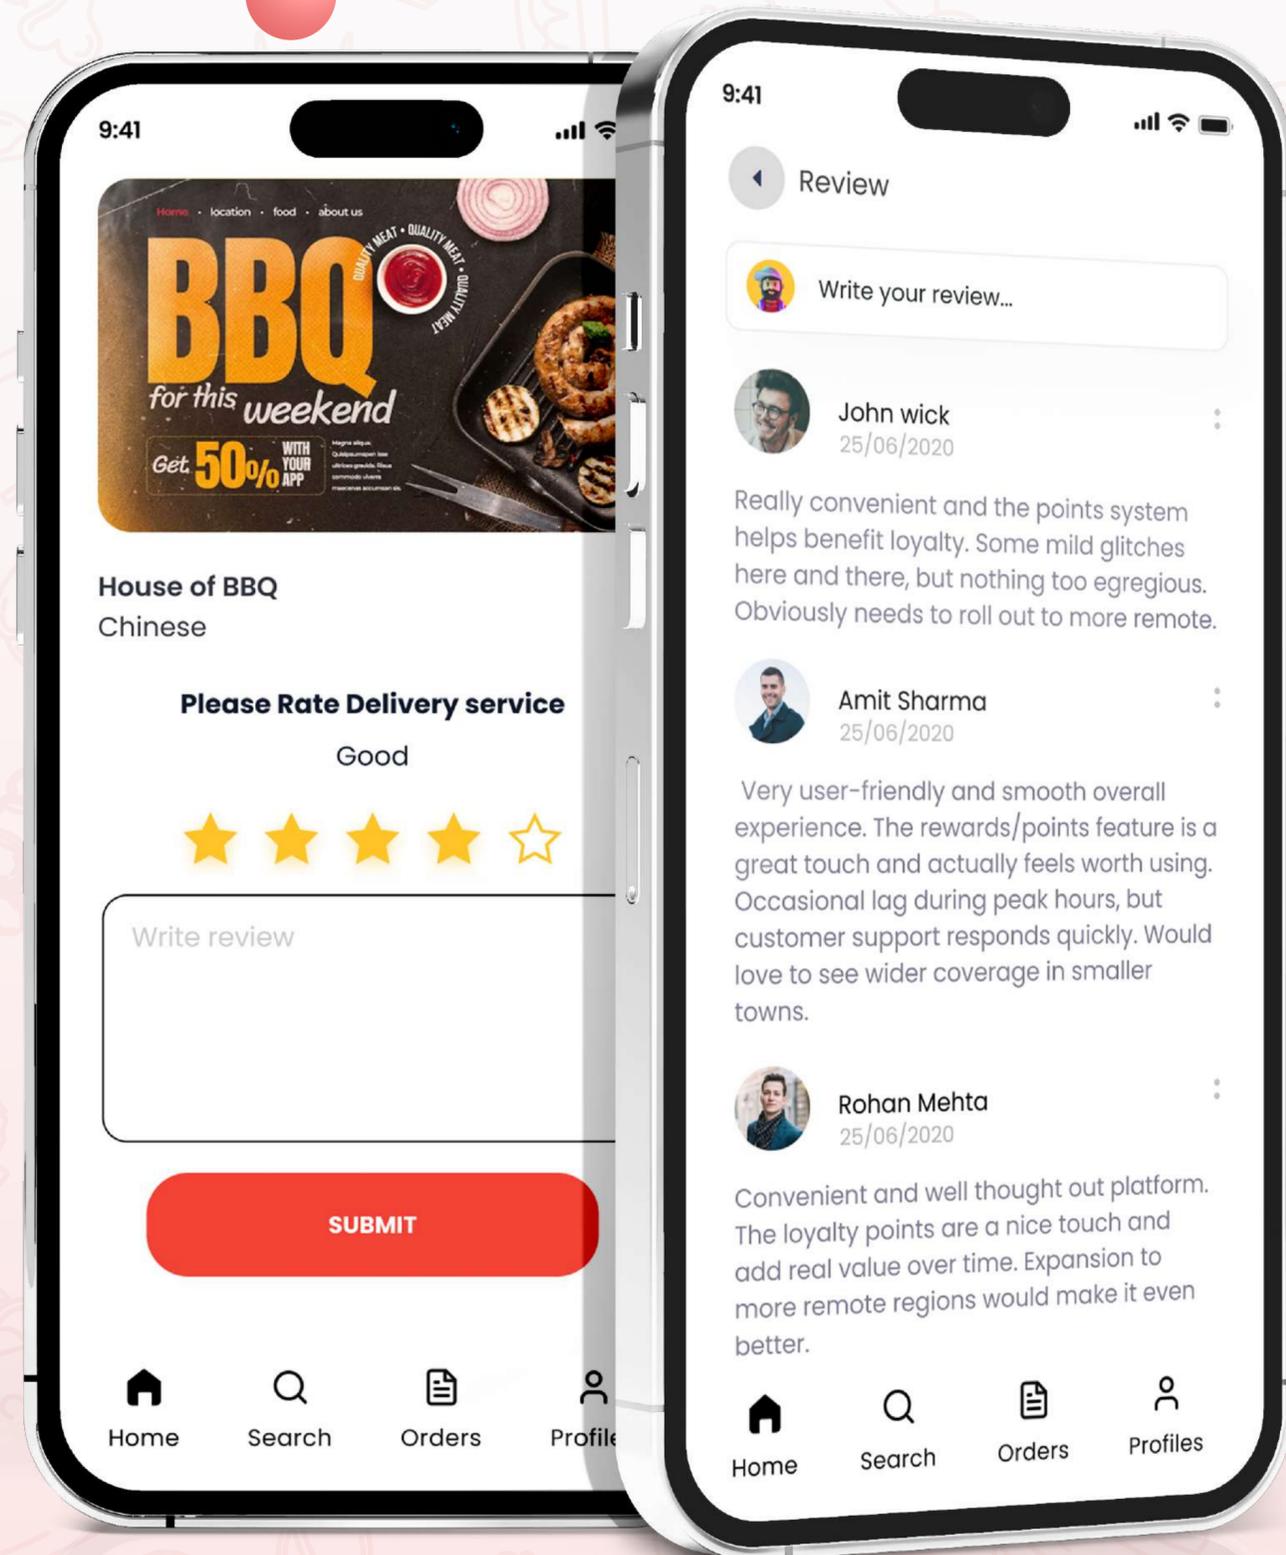

Referrals & Live Chat

Built in referral system to drive user growth and an in app live chat for instant communication between customers, support teams, and restaurants. This helps improve customer engagement, faster issue resolution, and overall service quality.

Reviews & Restaurant Ratings

Customer reviews and rating system that helps users make informed choices while enabling restaurants to improve quality and service standards. Restaurants can track feedback trends and address service gaps to improve overall performance.

Admin Panel & Delivery Partner App

The platform includes a dedicated admin panel for restaurant and operations management, along with a delivery partner app to handle assignments, tracking, and delivery workflows efficiently.

Thank you for taking the time to explore Hunger Hop. The platform is built to support scalable food delivery operations, streamline restaurant and cloud kitchen workflows, and deliver a reliable experience for customers and delivery partners.

We look forward to discussing how Hunger Hop can be customized to support your business goals and growth plans.
